Bleaching Materials

Pola Office Whitening (SDI)

- The high viscosity gel ensures it
- can be easily and securely placed
- into the tray and remains in the
- tray for the entire procedure.
- The pleasantly flavored
- spearmint gel is both fresh and
- long lasting.
- The addition of fluoride rematerializes the tooth surface assisting in reducing post-operative sensitivity
- The Pola Day and Pola Night gels contain a desensitizing agent which acts on the nerve endings, and desensitizes

Forté Teeth Whitening (Nu Radiance)

Nu Radiance Forté
Teeth Whitening System
A fast acting teeth whitener with the additional benefit of calcium peroxide to help strengthen the enamel by increasing re-mineralization and surface hardness.
30 minute treatment times
Calcium peroxide strengthens and re-mineralizes the tooth enamel
Lessens appearance of "white spots" from de-calcification such as from orthodontic braces
Reduced sensitivity
Fast results - in about a week!

Nu Radiance Forte with calcium strengthens and whitens teeth at the same time, without causing sensitivity. Forte's blend of activated gels require only brief 30 minute wear- times. Forte's calcium rich formula is also effective in treating white spots from de-calcification, such as following orthodontic (bracket) treatment. See exceptional whitening results in as little as 5-8 days while increasing tooth surface hardness and promoting

Touch Up Kit 1 - 4 ml dual syringe, multiple mixing tips and instructions.	17-11141	**9.95**
